

October 21, 2004

Mr. Phil Landon
Director of Marketing
Val-Matic Corp.
905 Riverside Dr.
Elmhurst, IL 60126

Dear Mr. Landon:

Please be informed that our Product Certification Accreditation Program is part of the Conformity Assessment Department of the American National Standards Institute. Our program accredits product certification programs to ISO/IEC Guide 65 *General Requirement for Bodies Operating Certification programs for Products* as well as to other industry and company standards.

In addition to other product certification programs, Underwriters Laboratories (UL) has also been accredited by ANSI to certify products to ANSI/NSF 61 *Drinking Water System Components-Health Effects*. For more information about the ANSI Product Certification Accreditation program and the current list of accredited certification programs and scopes, please access: www.ansi.org.

Sincerely,

Reinaldo B. Figueiredo
Program Director,
Product Certification Accreditation

cc: Ms. Jodine Smyth, Underwriters Laboratories
